Sirs, Air 1 Serves our community by providing a good clean alternative to regular radio stations. I can listen without worrying about what my young children are hearing on this station. Our local community has a very large selection of other radio stations but our selection to this type of alternative music is very limited. The service provided by Air One and other Christian radio stations gives all of the people living in this valley a broad choice and an Island of Tranquility in this ocean of todays lives. Thank You and May God Bless You and your decision.
